Description

The OPLFNC Series SWICHGAGE® uses the same basic sensing mechanisms as our proven line of 4-1/2 in. (114 mm) diameter dial SWICHGAGE® instruments. It retains all of the advantages offered in our OPL Series SWICHGAGE® instruments. The face adjustable contacts, however, are Normally Closed under “normal” operating conditions and trip “open” when set point is reached. This allows for a Normally Closed protective control circuit.
